This class was a lot of work but was absolutely worth it. Even though the 8:45am start was a little rough at times, I thoroughly enjoyed each lesson and even looked forward to going. Dr. Henin is incredibly engaging and has achieved a perfect balance of entertainment and effective teaching. He made a potentially very dry subject into something fun. I will be looking out for classes he teaches in the future.

Very good course! Really appreciated the mix of videos, debates, simulations (UN Assembly & Tragedy of the Commons games) and readings to teach the course!

Professor Henin has been hands down my favourite and most effective professor so far throughout my experience at Concordia. I am a JMSB student who took this course as an elective and I am so happy I did. His in class presence is outstanding, he keeps everything interesting and involves everyone in the class. He grades very fairly and tells his student what he expects of them so that there is no misunderstandings. Overall, Mr. Henin has given me my best in-class experience of my academic career. I have already recommended him to many of my peers and will continue to do so. Thank you so much for a great term.

As the first class I went to, I felt this class was very difficult, with sometimes up to two times the reading from my other classes that were twice-a-week classes.

One of the best professor I have encountered in the Political Science Department. Ive learned so much. His notes are super clear and his teaching style is phenomenal. I would retake him if I got the chance. Really kind, helpful and really wants students to pass. Assignments provide a lot of opportunities to think and reflect. Wish he had more office hours, maybe longer hours.

One of the best professors I have ever had ! The readings are sometimes a bit hard to understand,however when I came in class the professor clarified and made the concepts of the readings comprehensible.

very helpful , interactive and encourages students to ask questions.

studying in a university in canada is new to me plus I have a baby of 4 months and english is not my first language ,so I was so worried all the time but the professor always clarify me all my doubts, the best part of my week was his class , I feel that I learned a lot ,never boring ,best professor I ever had. I would love to have him in future class, very smart.

Thibaud is a brilliant professor. Apart from being very knowledgeable and hardworking,and having a strong grip on his subject matter, he is very polite and encouraging whose positive feedback brings out the best in you

LEGEND:

The term 'N/A' stands for 'Not Applicable'
 The term 'MD' stands for 'Missing Data'

STATISTICS:

The total number students participating in the evaluations and the total number of classes used in the comparisons for this particular report are listed in the following table:

TOTALS	DEPARTMENT		FACULTY	
	Current Semester	All	Current Semester	All
# of Classes	48	1611	259	8380
# of Participants	536	33091	3113	158094

NOTES:

1. Departmental means and percentages have been calculated as the average of all the individual course means and percentages (rather than from the individual responses for the department which would result in large classes unduly influencing the results).
2. The numbers quoted are actual numbers of respondents.
3. Standard Deviation is a measure of the degree to which the responses varied for each question. A smaller value suggests a higher level of agreement among the respondents.
4. The graphical symbols represented as Centiles are decoded as: << (0-10) < (10-30) > (70-90) >> (90-100) in which the number designates the percentile of the class mean in relation to the sector.
5. The lowest and highest mean for a course in this department is for the current semester.
6. The value for sector mean columns have been calculated as the average of all the individual course means.
