Student Comments:

- The teacher was really effective and was always accessible outside class hours to help students as much as he can even during the lockdown period. He made sure to always compromise his schedule to help students as much as he can. It was greatly appreciated.
- Not only was the professor very knowledgeable on the subject of the course, but he also made sure that we had all the tools necessary to succeed in his class. He welcomed propositions from the class and changed his teaching methods accordingly. When we needed to move the class to an online format given the pandemic, he made the new instructions very clear and was very considerate of the students' needs. This class was not an easy one, but I still managed to get an excellent grade because of the clarity of both his teaching and the guidelines of the assignments. He was one of the best professors that I have had during my degree.
