

## 1. Please share with us your thoughts on the course:

### Please comment on the instructor's strengths and areas for possible improvement.

- "Professor Henin is a very good teacher who clearly knows a lot about the subject and made class interesting. He is a good lecturer but also didn't lecture all day, each day, which was nice. This has definitely been one of the best courses I have taken in my year at UO." -- [REDACTED]
- "Thibaud is a good instructor. He is intelligent and did a fine job teaching a 101 course that covers a ton of ground. He is excited about the content of his course and is eager to teach his students. I don't have much complaint about Thibaud's instruction." -- [REDACTED]
- .
- "Thibaud is a great teacher and I like not having exams." -- [REDACTED]
- I liked how we went over readings in class. I didn't like that we were told that we didn't need to buy the book, but the instructor referenced it everyday.
- Nothing.
- He presented the lecture in a clear way. He made it easier to learn with the videos and the articles given to us.
- "He always came to class prepared with a slideshow. He was open to the classes suggestions about how to run the class to a way that fit with our learning abilities." -- [REDACTED]
- "Strength: Well organized, fairly graded the class, tried to help every individual, explained concepts clearly  
<br/><br/>Improvement: Technical difficulties, less presentations by students" -- [REDACTED]
- Great Class, I had a great time.
- You made the course very interesting with not too much information thrown at us at once. You also did a good job of making sure it was an interactive course. It would be helpful to put a little more on your slides for note taking.

### Please comment on the strengths and areas of possible improvement for the course as a whole.

- "I really liked the way this course was set up. I liked having journals and articles, rather than more book reading and midterms. I found the subject really interesting and feel like I actually learned useful information in this class." -- [REDACTED]
- "Understandably as a 101 course, the content felt very broad. I have a rudimentary idea of pretty much everything politics. This is good, as soon as I felt like I had a grasp of a content, we would move on and never touch on it again." -- [REDACTED]
- .
- "I learned so much in this course and though it was helpful to have had him before so I knew what to expect on the quizzes but it was still challenging." -- [REDACTED]
- The book was too expensive, I liked weekly quizzes as opposed to a midterm, i liked presentations, I thought a lot of the articles were confusing because I didn't have any background knowledge of it and I had to wait for student presentations to understand. Maybe provide some definitions and basic background info with the article.
- Nothing.
- The strengths for the course as a whole was that everything was very structured and made it easy to learn the information.
- "It was well organized, but I wish we had more group work." -- [REDACTED]
- "Strength: Class size, chapters we went over<br/><br/>Improvement: None" -- [REDACTED]
- No comment.
- The technical issues were not your fault so that is something the University would have to make easier but other than that I found this course exceptional for a 100 level course.
