

1. Please share with us your thoughts on the course:

Please comment on the lab or discussion leader's strengths and areas for possible improvement.

- "One of the best discussion sections I have ever been in. Excellent use of time and went over the materials and expectations very well. It should have been hard to do poorly in this class because of how willing he was to help students." -- [REDACTED]
- "Thibaud was by far one of my favorite discussion leaders that I have had thus far. The actual discussion section always went over the reading relating to specific theorists which helped to clarify any confusions that I was faced with, as well as helping work through assignments and leading effective study sessions for midterm and final exams. Thibaud was also very helpful in office hours, and always was willing to help me work through any concerns I had in the class (the op-ed assignment being the perfect example). Overall, Thibaud was very helpful and helped me thoroughly understand the concepts that Professor Cramer is expecting me to understand." -- [REDACTED]
- "I think Thibaud has a huge passion for what he does, and it helps the learning experience of the students." -- [REDACTED]
- "great job as a whole,
wish we spent more time reviewing the readings and answering questions as a group to make sure we are all on the same page" -- [REDACTED]

Please comment on the strengths and areas of possible improvement for the lab or discussion as a whole.

- "Always very purposeful and direct, never muddled around in useless things. Always had a clear direction for the discussion." -- [REDACTED]
- "The discussion was very beneficial in the fact that it always clarified any questions that I had from lecture or the readings. The only area of improvement that I can see would come from finding a different way to have people discuss the different readings because those conversations always seem to stall for a little while." -- [REDACTED]
- "Occasionally we would run out of time for what we were doing, usually because we were in a group wide discussion. This is perfectly fine and I would argue better, but the class plan wasn't always followed." -- [REDACTED]
- "better connections between the readings and textbook" -- [REDACTED]
